

Seat Comfort Systems

One-stop Shop for Aircraft In-seat Motion, Lighting, and Passenger Controls

Select our highly configurable and advanced Carat® Motion & Carat® Light systems for your VIP, first class, business class and premium class aircraft seats. Astronics PGA delivers industry-leading, tailor-made solutions to seat manufacturers and airlines worldwide.

One-stop Shop Supplier

To equip your seats and add new features for your customers, count on Astronics PGA for a full range of equipment:

- Control units
- Actuators
- Lumbar systems
- Harnesses
- Lighting & mood lighting systems
- Passenger control units
- Push buttons
- Indicators
- Power supplies and more.

Solutions from Astronics PGA make your seat development easy. As the industry's one-stop shop partner, you'll save energy, time, and hassle while producing a terrific product.

We contribute to your success with customized services from project definition through design, delivery, and ongoing support.

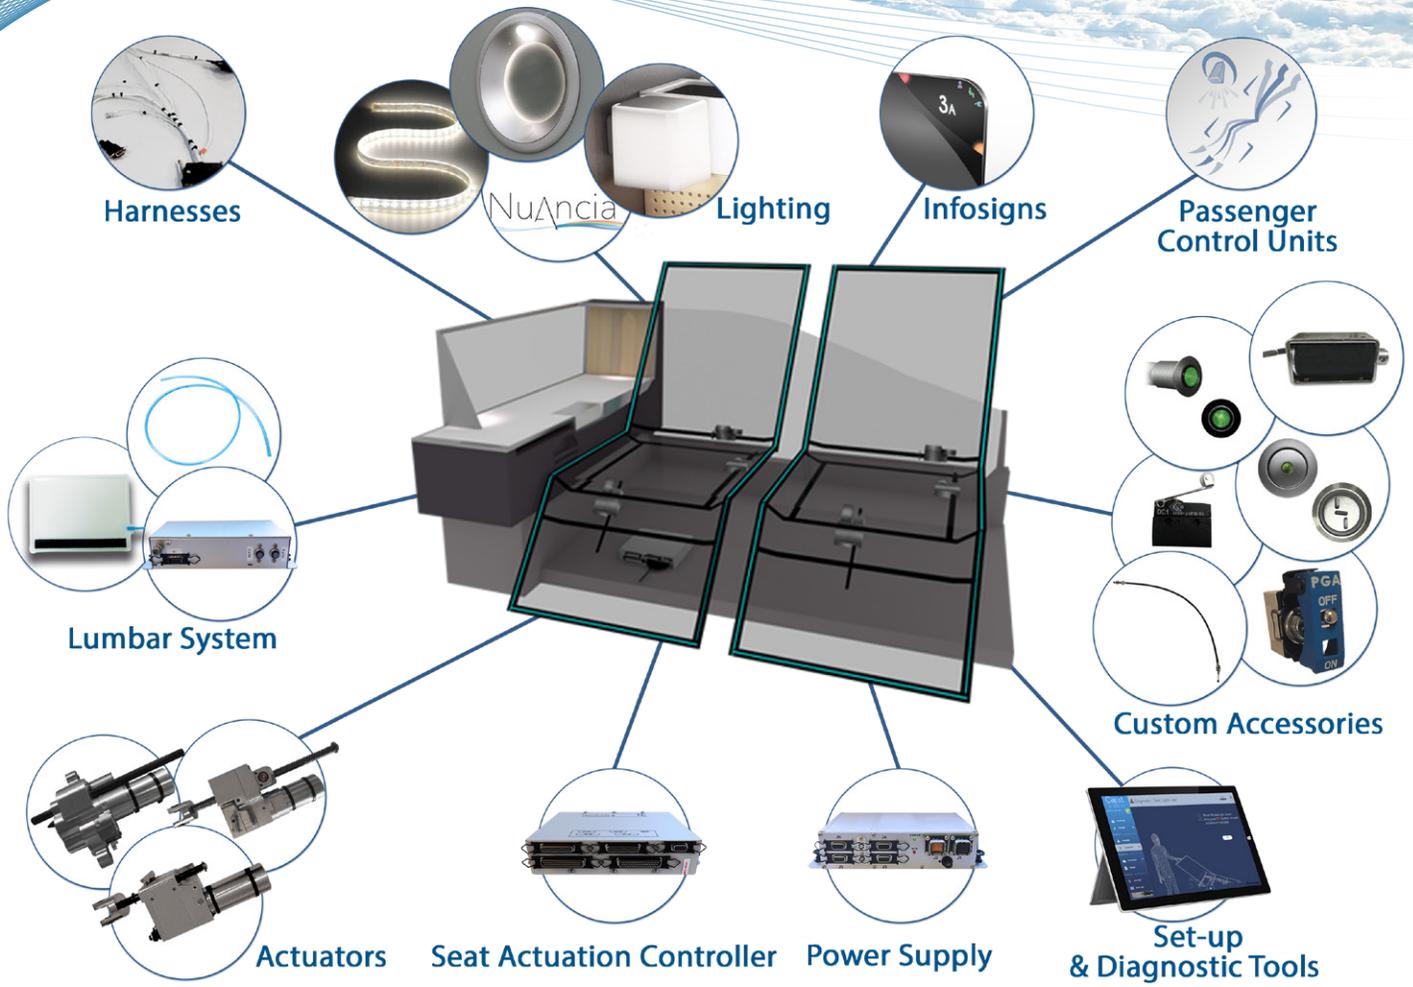

With Astronics PGA, you'll eliminate the technical risks that occur when integrating products from several suppliers.

Reliability and Quality Assured

In all phases of development, under severe operational environments, Astronics PGA's actuators meet a reliability level of 99.8% and the control unit meets 98%, the highest reliability levels on the market.

KEY BENEFITS
