

Rugged, Responsive Lighting Solutions

Lighting and Safety Systems for Your Rotorcraft

When degraded environments call for an upgrade in lighting systems, depend on the innovation of Astronics. Our comprehensive solutions enhance the safety, performance, and cost-effectiveness of your rotorcraft with lighting options that range from cockpit panels to cabin, external lighting to emergency egress.

As your award-winning, long term supplier, we work side-by-side with you to ensure your lighting solutions—whether COTS or custom—fit your program's unique commercial or military program requirements.

Astronics solutions stand proven, rugged, and ready right now to power your next mission.

Cockpit Controls & Panels

Create your next-gen cockpit with high performance keyboards, panels, displays, night vision options and more.

Exterior Lighting

See and be seen with anti-collision, position, and formation lights. Shock and vibration resistant and energy efficient for safe, long-lasting operation.

Also ask us about Helicopter Emergency Egress Lighting (HEEL) and cabin lighting solutions.
