# **Quality Assurance Engineer/Specialist**

## Company :

For over 40 years Astronics Luminescent Systems Incorporated (LSI) has focused on expanding their product line to evolve into the premiere supplier of aircraft lighting systems. Our Canadian Astronics LSI division located in Montréal is an industry leader in the design and manufacturing of aircraft cockpit lighting components and systems for military and civil aviation. Astronics LSI Canada Inc. specializes in the engineering and the manufacturing of custom avionics HMI product including simple and complex keyboards, illuminated display panels and bezels, and control panel assemblies.

# Summary :

Reporting to the Quality Control Manager, the Quality Assurance Specialist is responsible for the drafting of corrective actions and analyzing the causes of failure.

### **Qualifications :**

- Successful completion of University degree in engineering, administration, operation management or equivalent.
- Minimum 2-4 years' experience in a similar position (experience in aerospace is an asset).
- Familiarity with AS9100/AS9101, AS9145 and IPC610 is an asset.
- Thorough knowledge of MRP/ERP Systems.
- Knowledge and experience of sampling plans, R & R, statistical technique, and FMEA. 8D is an asset.
- Familiar with technical product, ability to read manufacturing drawings and electrical diagrams.
- Knowledge of machining processes, painting and electronic assembly is an asset.
- Knowledge of Canadian civil aviation regulation is an asset.
- Expertise in development and process improvement (Lean and/or Six Sigma is an asset).
- Extensive knowledge in MS Office (Word, Excel, Power Point...)
- Bilingual (French and English written/spoken).
- Proficiency in professional English communication skills (written/spoken)

#### **Responsibilities :**

- Draft and manage corrective actions such as 8D.
- Draft failure analysis reports.
- Support the Quality Control Department (NCR, RMA).
- Interface with our customers/suppliers.
- Active participation to the material reviews meeting.
- Occasional travel outside the country to visit customers and/or suppliers.

We are seeking a dynamic candidate with excellent communication skills, a rigorous, conscientious professional who enjoys challenges and is a team player. Remuneration to be determined in accordance with candidate experience.
