

## 1235-8

### 110 Volt AC Outlet Unit

The EMPOWER® AC outlet unit provides passengers with the ability to charge any portable electronic device safely and efficiently. Designed for use with EMPOWER® In-Seat Power Supplies, the universal AC outlet supports charging of all portable electronic devices anywhere in the world.

#### Features

- Combined “power available” and “system status” indication LED on faceplate provides user with intuitive visual feedback
- Designed for use with EMPOWER® In-Seat Power Supplies (ISPS)
- Installed in passenger seats, flight deck, galleys, crew rests, and off-seat locations
- Soft internal backlight LED provides visibility of the outlet in a dark cabin
- Extremely robust—designed for high reliability
- Developed in conjunction with seat manufacturers for maximum installation options
- Stock and custom colors available
- Compatible with plugs from over 155 countries

#### Power

**Output:** 110VAC, 60Hz

Rated to handle 200VA of power at 110VAC, 60Hz

#### Safety

- Intelligent safety interlock provides 110VAC only when a plug has been properly inserted into the outlet
- Third ground provides additional system grounding to the aircraft structure

#### KEY BENEFITS

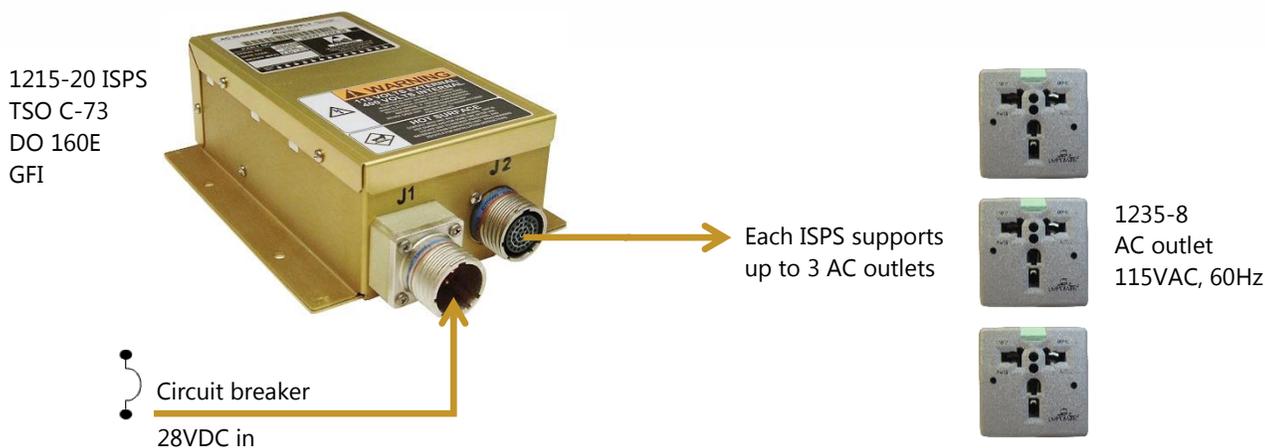

- Power status indicators
- Small form factor
- Available in numerous colors to match cabin
- Decorative plated or unplated cover available
- Universal for worldwide device charging
- Soft backlight for dark cabin

#### Certification

- Certified and offerable on aircraft for FAA Part 23, 25 and 29 installations
- PMA on multiple aircraft types

## Configuration

Combine EMPOWER® Outlet Units with the EMPOWER® In-Seat Power Supply for a complete solution.

## AC Compatibility

## Size

1.97 in H x 1.97 in W x 1.15 in D  
(50 mm H x 50 mm W x 28.7 mm D)

## Weight

0.13 lbs (0.06 kg) nominal
